

Aeronautical vocation

Consultants and engineers specialised in **aeronautics**

Aerospace & Aviation

AERTEC Solutions is an international engineering and consultancy specialised in aeronautics. It was founded in 1997 and today carries out activities in the aviation sector, the aeronautical industry and aerospace & defence systems.

Our project references cover more than 130 airports across more than 40 countries on five continents. We are the most aeronautical of airport consultancy, design and engineering firms.

We are currently a Tier 1 supplier for Airbus Group for manufacturing engineering services and programme management for their commercial and military aircraft. We also participate in the world's largest aerospace programmes, such as the Beluga, the A380, the A350XWB, the A400M, A320 or A330MRTT, among others.

AERTEC Solutions designs aerospace systems for aircraft, unmanned aerial platforms and high dynamic vehicles, both for commercial and for military use. Our products include lightweight tactical RPAS vehicles, designed in-house with our own technology. These products include *TARSIS 75* and *TARSIS 25*, for observation and surveillance missions.

Our workforce is made up of 650 professional aeronautics experts, with offices in Spain, the UK, Germany, Colombia and the United States.

Let's talk aeronautics

MORE THAN 130 INTERNATIONAL AIRPORTS

We are part of the following aerospace programmes

AIRBUS DS

A400M

A330MRTT

CN235/C295

EUROFIGHTER

nEUROn

ATLANTE

AIRBUS

Beluga

A380

A350XWB

A330neo

A321neo

A320neo

A320

EMBRAER

KC390

E175-E2

BOMBARDIER

Global 7000/8000

LEONARDO

AW101

In-house RPAS programmes

TARSIS 75

TARSIS 25

Preferred strategic supplier for Airbus

Manufacturing engineering services
(ME3S)

Project and programme management services
(PMO)
