→ Project & Programme Management

Optimising time, costs, quality and performance

Aircraft industrial cycle

AERTEC focuses its programme and project management (P&PM) services on the deployment and ensured application of project management processes, methods and tools, the submission of progress reports (key performance indicators (KPI) and dashboards) according to the aeronautical programme's cost analysis, action plans, risk management and master planning.

Our services are tailored to the needs of each client and project.

Our team of highly-experienced engineers have thorough knowledge about methods, processes and tools. We play a key role in the management of aerospace programmes and that is the reason why our qualified personnel are at the very forefront of programme and project management.

PROJECT & PROGRAMME MANAGEMENT > SERVICES

- ▶ Project establishment
- ▶ Schedule management
- ▶ Cost management
- ▶ Resource management
- ▶ Risk management
- ▶ Follow up (interdependencies)
- ▶ EVM analysis
- ▶ Coordination of shared risk partners
- ▶ Monitoring and controlling of activities
- ▶ Configuration management
- ▶ Critical path definition
- ▶ Configuring the main KPIs
- ▶ Preparation of reports (programme status)
- ▶ Project closure

Our PMO consultants are integrated into the client's teams at their premises (in-house service)

Tailor-made services

Leadership skills

Our team of highly-qualified engineers with experience in the aeronautical industry are trained and certified in the following key concepts:

- Project management guide (Airbus)
- Professional project management (PMP)®
- Lean manufacturing
- Specific training (Airbus)

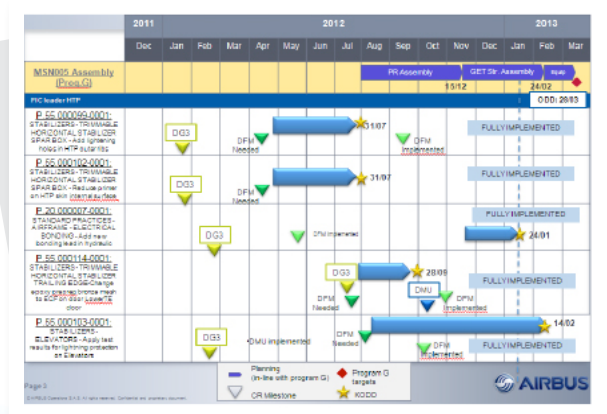

Any specific training needs in methods or tools will be analysed with the project manager or person in charge of the department.

Preferred strategic supplier for Airbus

Project and Programme Management Services (PMO)

Planificación anual

Let's talk aeronautics

Our projects speak for us

A320

- ESG quality assistance (Getafe, Spain)

A330 and Beluga

- PMO assistance (Getafe, Spain)

A350

- PMO assistance for recurring cost convergence (Getafe, Spain)
- Business analysis of RFE increases (Getafe, Spain)
- PMO assistance for Alestis (Puerto Real, Spain)
- A350 XWB / Engineering assistance (Getafe, Spain)
- A350 XWB / FTI and S19 assistance (Getafe, Spain and Toulouse, France)
- A350 XWB / CTL assistance in S19 procurement (GetafeSpain and Hamburg, Germany)
- A350 BMKT / Assistance for wing lower cover KDW (Getafe/Illescas, Spain)
- A350 BMKT / Assistance for wing lower cover KDW (Stade, Germany)
- A350 XWB / PMO assistance (Getafe, Spain)

A400M

- PMO assistance for the Programme Office (Seville, Spain)
- Assistance for enhancement and performance activities at the FAL (Seville, Spain)
- PMO assistance for manufacturing engineering (Seville, Spain)

Airbus D&S

- Strategic logistics initiative PMO (Getafe, Spain)

Other projects

- CAL programme manager (Lunenburg, Canada)
- Neo A380 - Assistance for plateau rear-end (Getafe, Spain)
